第10話
ugh...
ugh...
Aarah
I wasn't done playing
Run away even if you have to crawl!

You low-life.
Why are you angry?
Well, he's a "vessel candidate"
so I bet he won't be killed
That bastard... He jumped in for some random stranger...
!!!

I seem to be an idiot.

I simply will not forgive someone who kills as a hobby!!
Woah, you really have snapped.
Your acts are inhumane!!
What's wrong with that?
I only killed them because they intended to inflict harm on Iga.
You sure are stifling
Unf.

!?
!?
But he's not holding any weapons in his left hand----
Wha...
Oh! I remember now
That hair color... Ishida Sakichi
You're a "vessel candidate"
You didn't know?
There is a high chance that the Orochi resides within you
But well, there are several other candidates as well
Vessel candidate...
You said the same before too. Do you mean the Oroch's vessel?
I am a "candidate" for that?

I might be the Orochi...?
I see. I got hold of good information.
Indeed
If that's true, you, who need the Orochi will not kill me
I will not kill you however

I have not said anything about not harming you.
Alright...
Gah...
Even though I should be repelling his sword.
Did he hide a weapon!?
There is no way he thought he'd be cut me two-handed so how!
No, he doesn't have any

You know Okuni?
Kunoichi Okuni offered me much more entertainment
Really. Your strength is boring.
Yes
She is being tortured at Iga as we speak.
Wha--
Out of the question
I will kill her later bit-by-bit
Aah, I'm looking forward to it
She refuses to tell us the location of the Onichi. you see so it seems they're running out of options.
Return her--

Aah
this's good
keep resisting
like this
Shut up!
It's in my
nature you see
It's my way of
living, so it can't
be helped right?
I love seeing
people's hidas
twist in agony
I am not
interested in
being scolded.
You curl
It will make
seeing you on the
brink of death even
more pleasant
The more defiance
you show... the more
thrilling it is
Their senses of
powerlessness.
Yes
It's so good
It's completely
different from those
people crying for
their lives.
Just like that
father and
his son
You ought
to die while
despairing over it.

SHUT UP.

Oh, you figured it out?
ﾐｼｷ!
I have read about it
About a nation who can cut down people without weapons -
It's not that they do not carry weapons but it appears that way to make their enemies let down their guard
They hid the weapons

You certainly looked well
For an instance, your arm heaved
How much are you hiding in there?
You are the second to see through it
And to see it at point-blank range and come this close~
Inside their own skin.

The sound of your voice is annoying
If you live to kill for pleasure I will without question crush you
You keep saying that.
I do it because I feel like I can do it!

This is my way of living!

Fuh
Then,
why don't you try?

He disappeared
!

Freaky...

Getting singled out by a creepy pervert like that.
Hey you okay?
Ku...
Kuu~...

But really and truly it's great there was a h aiden hole so close.
and her field of vision sucks.
Guh.
I saved you with my improvised sling-shot
He would have cut off more than just an arm.
I see so he s safe
He ran qu ickly
What happened to that soldier?
You're not suited for the battle field.
Kinnosuke said the same
That last one has nothing to do with it.
Block head miss head
hypocrite
utter moron
poop
shitty hot-headed fool

Of course it is because I respect Hideyoshi-sama!
If I can be my Lord's strength in any way I will
And you still go out on the battle field?
I don't get it why do you go so far to listen to your masters orders?
It seems I am more fit to read documents and participate in politics
If I stay by my Lord that dream can be fulfilled
To make a world without war.
Because it is my dream.
That person can without a doubt

I know
But nothing will start if one does not say it
Nothing can change just with pretty words.
Nothing will be fulfilled just by wishing
Dreams...
What are you~~~
I'll tell you something that can bring you closer to that dream.
About the Oni-chi... All about us Kunnou and Otsu.
It might be possible to trust someone like you who doesn't lie.
Yeah.

But in return, you have to cooperate with us.
Sakichi.
